The double garage, equipped with a remote controlled roller door, provides secure parking and additional storage space.

The property is well-equipped for farming, with an enclosed workshop featuring a concrete floor and power connected, and a large hay shed attached to the rear of the workshop. The hayshed floor could easily be concreted to double the size of the existing workshop. The farm is thoughtfully divided into six paddocks, each with shade trees and water troughs for the stock. Two paddocks are suitable for cropping and hay production and have had superphosphate applied in recent years. The remaining four are ideal for running animals, with sheep currently on the property.

Additional facilities include good sized sheep yards with cattle crush and loading ramp, a fox-proof chicken coop, a small shearing shed, a tack-room, and several lean-tos for storage.

Water is plentiful on the property, with two dams providing water for stock and gardens, five rainwater tanks supplying the house, and a bore that can produce water for reticulated gardens. The long driveway leads from the no-through road, down to a creek crossing, past a dam, then up the hill to the house and sheds, emphasizing the property's sense of seclusion and privacy.

This delightful home and well-maintained property offer a rare opportunity to enjoy a peaceful, rural lifestyle with all the amenities needed for comfortable living and efficient farming. Whether you're looking to embrace a farming lifestyle or simply seeking a tranquil retreat, this property offers the best of both worlds.
