electric ovens, as well as polished timber floors that flow throughout the kitchen and living areas.

To one side of the living space is the master suite, offering privacy and luxury. The master bedroom opens onto the pool area through large sliding doors, and includes a walk-in wardrobe and ensuite with a separate toilet. A nearby study could easily serve as a nursery if needed.

On the opposite side of the house, you'll find two additional bedrooms. Bedroom two is situated at the front of the house and also has direct access to the pool area via sliding doors. Bedroom three, located at the rear, includes a built-in wardrobe. Both bedrooms are carpeted for comfort. The main bathroom features both a separate bath and shower, as well as a toilet.

The laundry is well-equipped with ample bench space and cupboards, with an additional toilet conveniently located off the laundry area. The house is framed by front and rear verandahs, and a double carport under the main roof.

The beautifully landscaped gardens surrounding the home feature a mix of low-maintenance succulents, established trees, and a productive veggie garden. Water is plentiful, with two bores and four rainwater tanks (20,000-gallon, 6,000-gallon, and 5,000-gallon 1,000-gallon). Bore one supplies water for reticulation via a poly tank, while bore two, supplies water to external taps. Both bores run of submersible pumps.

For storage and workspace, a 10m x 9.5m powered garage/workshop with a concrete floor offers plenty of room for tools and machinery. Solar panels on the garage roof help reduce power bills, and an 13kVA generator ensures backup power is always available.
